Supports For Agencies

We support agencies across the nation, offering innovative supports that help power the possibilities of the people they serve. Through our customized financial management services and software, and top-notch customer service and support, our team will help serve and guide you as you move in your desired direction.

Together we can create a world where people live with meaning and purpose.

We support agencies as they help the people they serve reach their hopes and dreams — living and working where they choose, being involved in their community, developing relationships and exercising their rights. With more than 25 years of experience and a reputation for top-notch customer service, we're an ideal partner for your agency.

Our supports for agencies

Financial Management Services: Our Financial Management Services team offers a variety of services and software options for agencies supporting people participating in self-directed programs. Services may include timesheet collection, payroll processing, filing, reporting and paying employer taxes, accounts payable, Medicaid and state agency billing and excellent customer service to both agencies and the people they support. Our level of involvement is determined by you and the option/s you choose, no matter how many participants are in your programs.

Person Centered Training: Person Centered Thinking training is two days of interactive training for learning and practicing effective person centered thinking skills, focused on how to discover and balance what is important to and what is important for a person. The person centered approaches taught in the training respectfully address issues of health and safety, from a variety of perspectives, while empowering the people receiving services to maintain control and a sense of being listened to.

Health and Wellness Supports: Our Board Certified professional staff provide customized training and support in emotional, physical and social wellness, and behavioral and mental health. We partner with you to design consultation services that address agency needs and promotes the well-being of employees and the people they support.

In the words of a satisfied partner agency's director:

"Mains'l is transforming the way we deliver and track the services provided to people and their families. We understand that supporting a loved one in your own home with a disability can be challenging, and with the creation of this program, we can ease some of that stress by streamlining the record-keeping process. The whole Mains'l team has been beyond terrific to work with. We have developed a true partnership."
