

COLLEGE PLUS

College Plus is a year-round program that supports people interested in pursuing a college degree or academic certificate.

Trained Mains'l employees are available to assist people with their academic needs. In addition, our staff provide supports in the community, as well as the participant's home, to help strengthen social, residential, and vocational skills.

Together, realistic and attainable plans are created in accordance to each person's hopes and dreams. This person-centered approach is tailored specifically to each person's goals and needs. Students receive support all year long, not just when school is in session.

The College Plus program focuses on real life skills in four global domains:

- ✓ **Academic Skills**
- ✓ **Independent Living Skills**
- ✓ **Vocational Skills**
- ✓ **Social Skills**

As we support people to build skills in each of these four domains, we collaborate not only with the student and their family, but also the educational system.

We understand that the transition out of high school and into "college life" can feel intimidating. For some people, this transition can be downright overwhelming.

That's why we're here to help.
