

YOU ARE
THE CAPTAIN,
WE ARE YOUR
CREW.

FINANCIAL MANAGEMENT SERVICES THROUGH THE SELF-DETERMINATION PROGRAM

The Self-Determination Program offers home and community-based services for people of all ages who want to maintain their independence and determine for themselves what mix of personal assistance supports and services work best for them.

Mains'l would be honored to be your partner in maximizing options. Our level of involvement will be determined by you and the support options you choose.

Your Choice of 3 Models:

Sole employer: You will be the legal employer of any workers you hire. Mains'l will be your payroll agent and will pay employees directly, as well as handle all payroll taxes. This model gives you the most control.

Co-employer: You and Mains'l jointly employ any support workers that you hire. You and Mains'l will share some of the employer responsibilities. You will still be responsible for choosing, hiring, scheduling, and training your workers. Since employees are jointly employed with Mains'l, some Mains'l policies may apply to your employees.

Bill Payer: If this model is chosen, your FMS provider is responsible for paying bills for goods or services to businesses. Mains'l pays vendors for the items approved in your spending plan. This model is not used when you are directly hiring support workers.

We are happy to discuss the models with you and determine which will best meet your needs!

Our Customers Can Expect:

- Exceptional customer service, with one point person (no call center)
- Accurate and timely payroll, vendor, reimbursement payments, spending and balance information
- Access to participant information and timesheet entry through the Mains'l web portal
- A system that assures participant's expenses are authorized, prior to issuing payments
- User friendly tools, including a helpful guidebook and forms

"There's so much to consider and be aware of when caring for a family member with disabilities. Mains'l has lifted the burden of financial management from our shoulders. No more stress or worries about payrolls, withholdings, employer taxes, W-2's, or any of the other complications of financial management. Now we can just concentrate on taking care of our daughter. Thanks Mains'!"

- Michael, father of FMS participant
