Mains'l Launches Two New Websites, Elevating Accessibility and Technology Solutions

Mains'l Services and Mains'l Solutions proudly announce the simultaneous launch of two interconnected yet distinct websites, designed to enhance accessibility and highlight advanced technological offerings.

The new Mains'l Services website prioritized developing an inclusive and user-friendly experience. Key features include streamlined navigation, an intuitive feedback tool, and additional accessibility enhancements. Clubhaus Agency, website development partner for the new Mains'l Services website, was instrumental in building these accessibility-focused elements.

"The launching of both websites, for Mains'l Services and Mains'l Solutions, reflects our commitment to innovation, clarity, and accessibility," said John Jakway, Chief Relationship & Transformation Officer. "We are excited about the opportunities these new sites create to better serve those we support and work with."

Simultaneously, Mains'l Solutions introduces its own dedicated website, clearly highlighting its technology products, including HCBS Software (Navigation Plus), Electronic Visit Verification (EVV), and Center On Me. This distinct online presence clearly positions Mains'l Solutions' software offerings and supports their growth.

Mains'l Services offers supports to those who need it so they can live a life of their own choosing. Since 1989, Mains'l has been a leader in person-first solutions for people with varying abilities, offering a variety of supports so people can live and learn in their own homes and communities.

Mains'l Solutions is a Financial Management Services provider, offering "software-as-a-service" across the country, to agencies serving veterans, people who are aging, and individuals enrolled in self-directed services. Our HCBS Software provides seamless participant-directed information and accounting services, integrates Electronic Visit Verification solutions into your software, and currently hosts thousands of users throughout the US.

Mains'l has offices in Brooklyn Park, MN and Chico, CA.
